Let's Start!

Talking About Piracy

Learning Outcome:

Understand information about people's backgrounds in spoken or written documents.

Define strategies to make terms of reference and supplier assessment processes, in technology acquisition, based on established protocols.

Ask your partner:

- In which situation have you copied or used work from others?
- How is piracy punished in your country?

Can Do Statements:

- I can talk about the concept of intellectual property infringement.
- I can discuss the risks connected to intellectual property rights infringement.
- I can talk about some criminal IP offenses in a company.

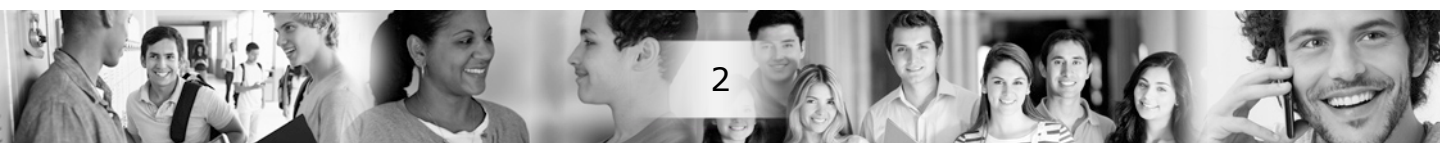

Let's Explore!

Discussing About Intellectual Property Infringement

Instructions: Read the text below.

- Peter:** Hey! Do you remember we were going to talk about the intellectual property of infringement yesterday?
- Wendy:** Can't we discuss it today?
- Peter:** Sure. Intellectual property infringement, or IP, may be defined as an act of breaking the law when distributing and selling products without permission.
- Wendy:** Intellectual property rights may be infringed when a product is used without an authorization or permission from the person who owns this product. Right?
- Peter:** Yes! What we usually call piracy.
- Wendy:** It can include technology. Can't it?
- Peter:** Exactly. Everything that includes infringement to copyrights and trade mark, or even selling counterfeits.
- Wendy:** What about the risks connected to this infringement?
- Peter:** Businesses may be involved in different risks if IP crime is evident within the work environment. Some risks may be leaded to limitless fines or custodial sentences.
- Wendy:** Viruses and malware can also be a risk. Can't they?
- Peter:** Absolutely! There are some activities that may be related to something done directly by the organization.
- Wendy:** Infringement can cause reputational risks, can't it?
- Peter:** Of course! That's even worse. The reputation of a business represents respect and trust from partners and customers. Any criminal action may be reflected on how other businesses deal with you.
- Wendy:** What are some criminal IP offences in a company?
- Peter:** For instance, employees selling copies of works; using the company's equipment to make infringing actions throughout the internet or to let visitors sell pirated items.
- Wendy:** Or using unlicensed software. Infringement may be committed even if the agent doesn't mean to do it.
- Peter:** Besides, this type of crime may be evidenced on the productivity of the company.
- Wendy:** That'd be such a shame to affect your work in such a silly way.

Let's Practice!

Peter explains some of the risks connected to the infringement of intellectual property rights.

Instructions: Read the sentences. Write the missing word(s) in the blank. Use: can't it? (x2) / can't they?(x2) / can't you?. You have 2 attempts to submit your answers.

1. Some businesses can be involved in different risks, _____
2. Some risks can lead to limitless fines or custodial sentences, _____
3. You can consider viruses and malware risks, _____
4. A virus can be related to something done directly by the organization, _____
5. Infringement can cause reputation risks, _____

Let's Practice!

Let's talk about the concept of intellectual property infringement.

Instructions: Read the following sentences based on the text. In front of each sentence write True or False.

Selling copies of works may be considered as a criminal offence in a company. Using the company's equipment may be considered as an infringing action committed throughout internet. Pirated items aren't sold in a company with authorization. Infringement may be committed even if the company has the best security system. The success of a company may be affected by criminal offences and piracy.

1. Selling copies of works may be considered as a criminal offence in a company. _____
2. Use the company's equipment may be considered as an infringing action committed throughout internet. _____
3. Pirated items may be sold in a company with authorization. _____
4. Infringement may be committed even if the company has the best security system. _____
5. The success of a company may be affected by criminal offences. _____

Extension Activity

Let's check some criminal offenses related to intellectual property rights infringements.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Do further research about the risks of intellectual property rights infringement.
- Make a list of the most common offenses.
- Summarize the most important facts about each offense.
- Organize the information in a slide show or poster.
- Share your findings with your classmates in a presentation.

Self-Assessment

Yes

No

- | | | |
|---|-----------------------|-----------------------|
| 1. I search information about the risks of intellectual property rights infringement. | ☐ | ☐ |
| 2. I make a list of the most common offenses. | ☐ | ☐ |
| 3. I summarize the information of the most important facts of each offense. | ☐ | ☐ |
| 4. I organize the information in a slide show or poster. | ☐ | ☐ |

Target Words

- **infringement** (noun): a violation or act that breaks a law.
e.g. Infringement can cause reputational risks, can't it?
- **law** (noun): an agreement stipulated by a legislature.
e.g. Intellectual property infringement, or IP, may be defined as an act of breaking the law.
- **own** (verb): to have something of your possession.
e.g. Intellectual property rights may be infringed when a product is used without an authorization or permission from the person who owns this product.
- **piracy** (noun): the unauthorized use of copyrighted material.
e.g. What we usually call piracy.
- **counterfeit** (noun): a copy or imitation of something without the owner's permission.
e.g. Everything that includes infringement to copyrights and trade mark, or even selling counterfeits.
- **fine** (noun): a quantity of money that is supposed to be paid because of doing something against the law.
e.g. Some risks may be led to limitless fines or custodial sentences.

Learning Points

The Passive of Modal Verbs: May

We use **may** in **passive voice** when we want to express factual possibility.

May in **passive voice** refers to an action that can be probably done by an unknown or non-relevant agent.

Examples:

*Intellectual property **may be copied** fraudulently.*

*Piracy **may be punished** in our country.*

The grammatical structure you need to use **may** in the **passive voice**:

Subject + **may** + **be** + **verb in past participle** + complement.

Examples

- *Intellectual property infringement, or IP, **may be defined** as an act of breaking the law.*
- *Businesses **may be involved** in different risks.*
- *Some risks **may be leaded** to limitless fines or custodial sentences.*

Negative Questions with Can to Ask for Agreement

Negative tag questions with **can** are used to request the **agreement** of a second speaker when something is possible to happen.

We can use **negative questions** with **can** to ask for confirmation of an idea or to reinforce the idea of something you know is totally true.

To create a **negative question** with **can** when asking for **agreement**, first, you need to make an affirmative sentence to express the idea you want to be agreed with.

Example:

*You **can** get a fine when distributing products with no permission.*

Afterwards, you introduce the negative question to ask for the agreement. It has to be composed by **can't** plus the **subject pronoun** used in the affirmative sentence.

Example:

*You **can** get a fine when distributing products with no permission. **Can't** you?*

Examples

- *It **can** include technology. **Can't** it?*
- *Viruses and malware **can** also be a risk. **Can't** they?*
- *Infringement **can** cause reputational risks, **can't** it?*
